## ABOUT PRERANA

Prerana pioneered a path-breaking model to end intergenerational trafficking for prostitution. This model consists of 3 interventions – Night Care Centre (NCC), Education Support Program (ESP) and Institutional Placement Program (IPP). Prerana's model is nationally and globally recognized as one that has a successful track record and one that is replicable in any red-light area setting.

For over three decades, Prerana has been deploying the interventions in some of the largest red-light areas in Mumbai and Raigad districts.

Over the past few years Prerana has also taken into account the broader group of children-at-risk, whose vulnerabilities have a correlation with children from the red-light areas. In particular are our initiatives – Aarambh and Sanmaan that look at issues related to child sexual abuse and child beggary.

**Our Mission:**

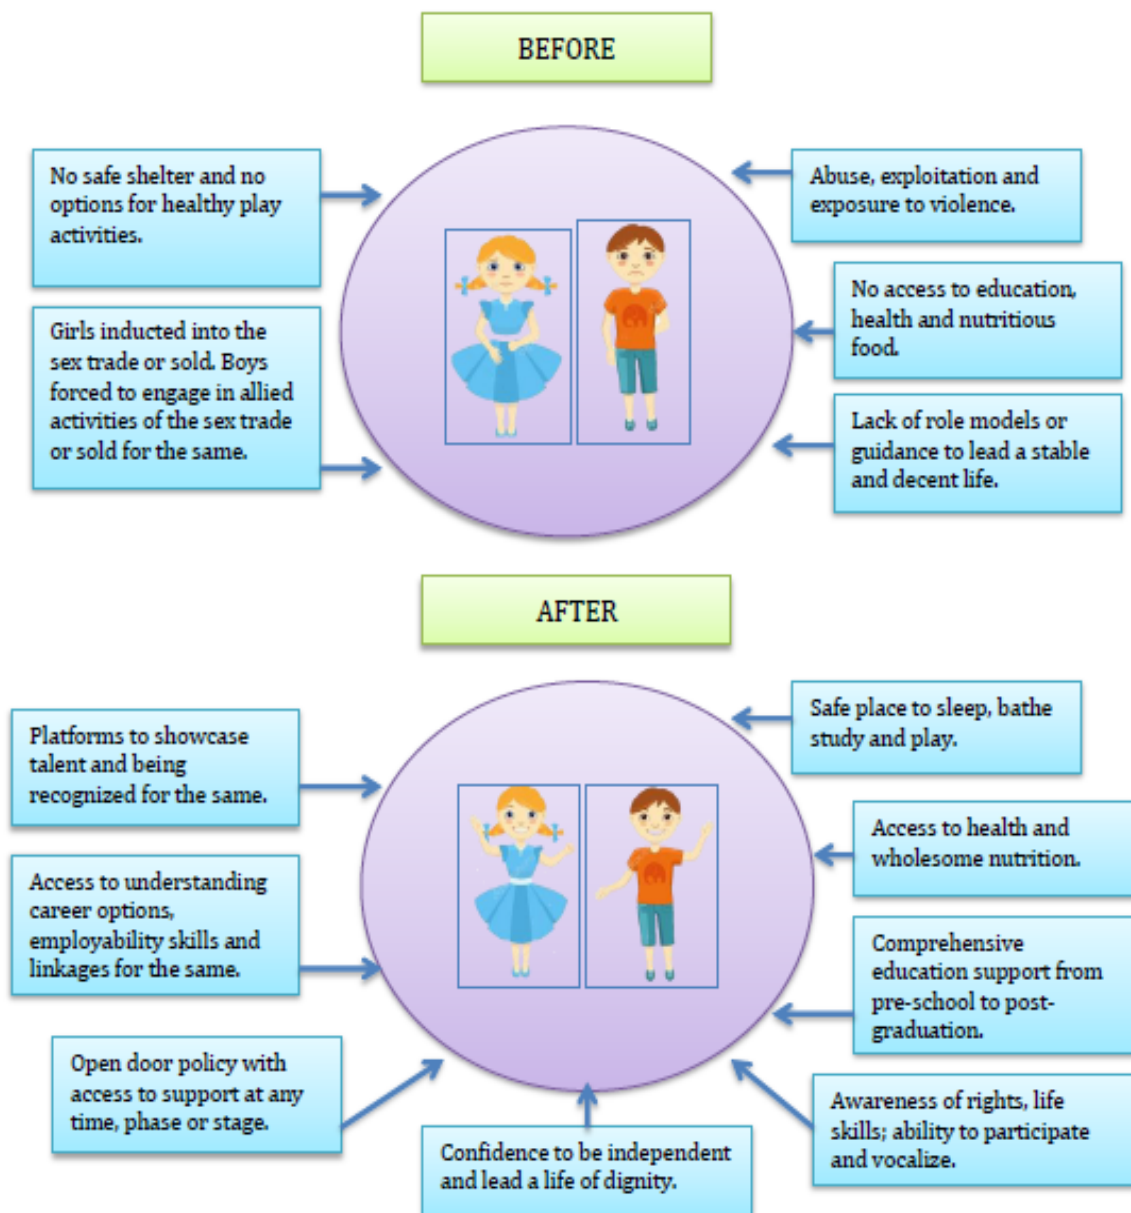

Prerana works to end intergeneration prostitution and to protect women and children from the threats of human trafficking by defending their rights and dignity, providing a safe environment, supporting their education and health and leading major advocacy efforts.

**Our Vision:**

We want to see a world where the innocence, weakness, and vulnerability of any human being is not exploited by others for commercial sexual exploitation and trafficking, the world is free of trade in human beings for sexual slavery, every child born leads a life full of options and enjoys a right to choose, a victim of commercial sexual exploitation and trafficking is not re-victimized but has a fair chance of social recognition and the society becomes more compassionate to the victims and intolerant of injustice.

Following is an at a glance view of the situation (in context with children), before and after Prerana intervened –

### **THE GOVERNING BOARD**

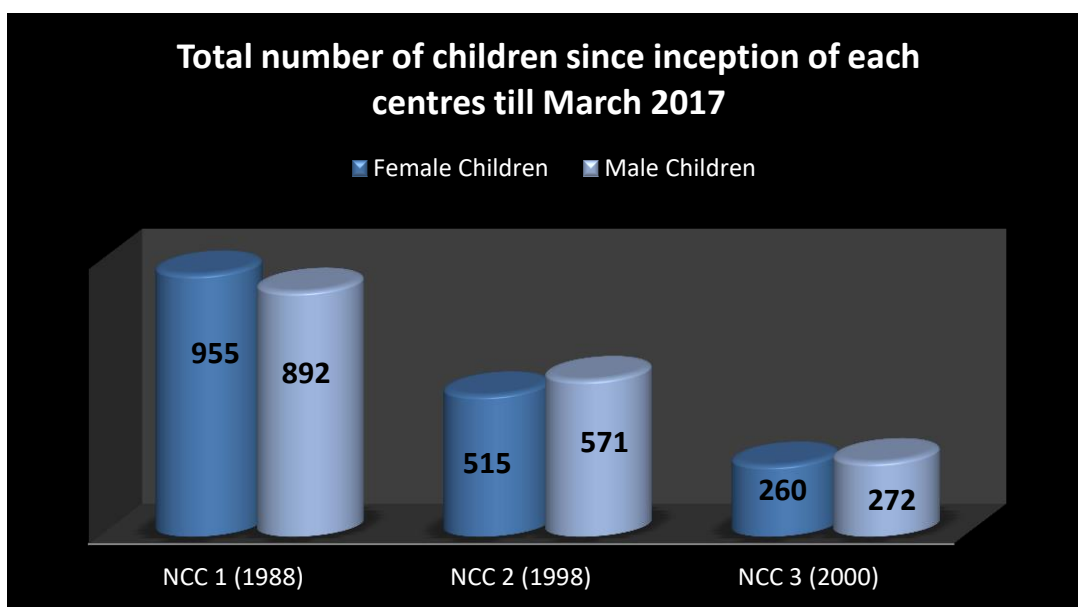

Prerana's Governing Board constituted of the following members -

SR. NO	NAME OF THE MEMBER	DESIGNATION
1	Mr. Suvalal Singhvi	Chairperson
2	Mrs. Farida Lambay	Trustee
3	Mrs. Priti Patkar	Executive Secretary
4	Mrs. Aparna Dhopeshwarkar	Trustee
5	Dr. Girish Kulkarni	Trustee
6	Mr. Anil Gawde	Trustee
7	Ms. Rupal Shah	Trustee

***During the reporting period, the Governing Board members of Prerana, formally met on 3 occasions.***

## **PRERANA PROGRAMS**

The data below gives an overview of the number of children who were enrolled in the NCCs and who have availed/are availing of services within Prerana's interventions. As is mentioned, this data is from the inception of Prerana's operations till the end of this report period.

## **PRERANA'S NIGHT CARE CENTRE PROGRAM (NCC)**

The NCC program was initiated as a response to an expressed need of prostituted women. The NCC is typically a space where children are taken complete care of so that they are away from the red light areas during the dangerous night hours. The NCC provides services such as – protected shelter, wholesome nutrition, education support, safe play options, safe sanitation options, and opportunities for skills development, awareness sessions and an overall platform for holistic personality development and growth. Prerana has set up 4 NCCs, which are located in/near the red light areas of Kamathipura (2 centres), Falkland Road and Vashi-Turbhe Stores. Following table will indicate some important statistics of the NCC Program for the year –

	NCC 1 - KP		NCC 2 - FR		NCC 3 - VT		BOYS NCC	TOTAL

## PRERANA'S EDUCATION SUPPORT PROGRAM (ESP)

The ESP is an intervention that caters to all educational needs of children- be it curricular, co-curricular or extracurricular. Prerana team organizes study classes during the evening hours wherein teachers provide support to school/college going students in their studies and project work. Prerana also collaborates with other donors to provide educational scholarships for students who want to pursue advanced or professional degrees and to those students who have to pay school/tuition/extra coaching fees. This program is deployed at the Prerana NCCs through a dedicated team of social workers, teachers and other resource persons. Following are some important statistics of the program for the year –

	NCC 1 – KP	NCC 2 – FR	NCC 3 – VT	TOTAL
<b>No. of school admissions</b>	13	36	14	63

## **PRERANA'S INSTITUTIONAL PLACEMENT PROGRAM (IPP)**

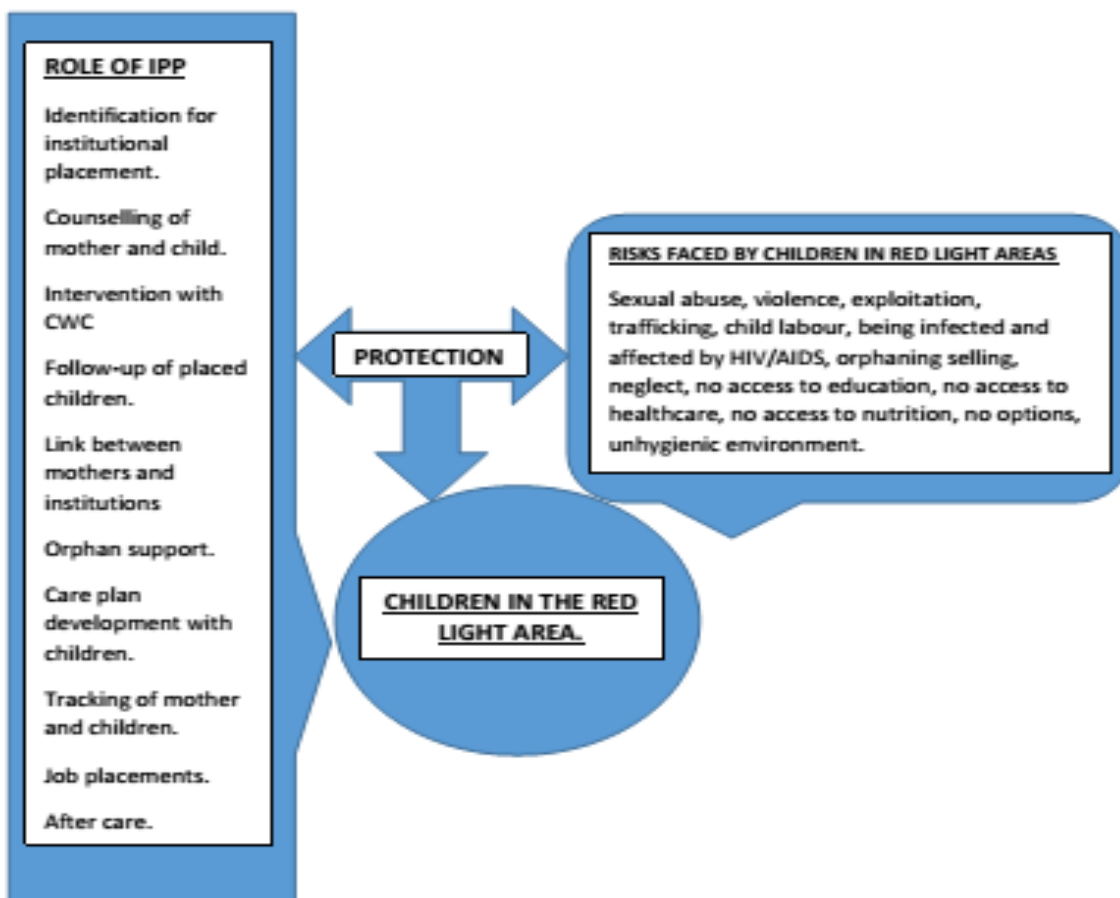

The IPP was evolved through requests from mothers who wanted to de-link their children from the red-light areas and place them in child care institutions for residential care and protection. In some cases Prerana felt that the child was in need of care and protection and needed to be placed in institutional care. What began as a need-based placement of children in child care institutions is now a structured intervention that involves collaborations with the government mechanisms to ensure successful protection and rehabilitation of vulnerable and at-risk children. Following table represents statistics of the IPP during the year.

Boarding Homes Related			New Admissions		
No. of boarding homes visited	No. of children followed up	No. of new boarding homes identified	Females	Males	Total
33	182	3	18	2	20

Following is a graphical representation of the IPP which will give an insight into the various components of the intervention.

## MOTHER NOT DE-LINKED FROM HER CHILD

### NAUNIHAL

To provide a nurturing space for children in need of safe shelter, Prerana set up Naunihal in October 2001. Naunihal home became a necessary addition to the Prerana ecosystem when conventional institutions for displaced children were found unable to properly accommodate girl children in especially distressed and dangerous circumstances. In addition to a supportive loving environment that understands the needs of these children the Naunihal home provides the girls with educational programs, medical check-ups, arranges meetings with the girls' mothers or guardians and provides additional recreational activities.

Naunihal has 8 residential and 1 non-residential staff running the shelter. There were 9 volunteers and 15 interns who provided support to Naunihal during the year. Till date 177 girls have availed of Naunihal's services and facilities. At the end of the reporting period there were 42 girls residing in Naunihal.

Following are statistics related to the girls who currently reside at Naunihal –

#### **PRERANA'S AARAMBH INDIA INITIATIVE**

The Aarambh India Initiative is a joint initiative that brings together over 30 years of on-ground child protection experiences of the Mumbai-based NGO Prerana and the international 'Break the Silence' campaign of the Hong Kong-based ADM Capital Foundation. Aarambh's Vision is a country where children are protected from sexual offences, victims are rehabilitated and offenders are brought to justice by the State. The initiative addresses the issue of sexual offenses against children with a wide range of strategies which include demonstration of national & international best practices, network building of organization across the country, developing communication resources & campaigns, providing onground victim support, strengthening government child protection systems, conducting evidence-based advocacy with policymakers and training & research.

**India's 1st National Resource Portal:** In 2014, we launched <http://aarambhindia.org> which is an online resource portal on the issue of child sexual abuse. Currently, the portal reaches out to around 50,000 users a month through updated information & resources on the issue. It hosts contributions from more than 50 national & international organizations & experts. The portal has targeted resources that reach out to a diverse audience of parents, teachers, medical professionals, lawyers, media personnel, academicians, civil society organizations and police. The portal currently has resources in English, Hindi & Marathi.

The National Commission for Protection of Child Rights has taken cognizance of the simple, easy to understand and visually appealing nature of the resource portal material. In October 2017, they consolidated the resources available on the portal and put together a User Handbook on Protection on Children from Sexual Offences Act, 2012.

**The Internet Hotline:** As a response to the growing menace of child sexual abuse imagery in the country & worldwide, Aarambh India launched India's 1st Internet hotline (in partnership with Internet Watch Foundation) for reporting online child sexual abuse material. The hotline was instrumental in the setting up of the National Alliance on Online Safety of Children under the leadership of Hon. Minister of Ministry of Women & Child Development. Aarambh India works closely with government departments like MIETY & DoT, organizations like UNICEF & UNESCO as well as companies such as Facebook & Google on various matters concerning the online safety of Children.

**Making Government Systems Child Friendly:** In collaboration with UNICEF, we work with the WCD departments in Maharashtra in supporting victims of sexual offences, who come to the Child Welfare Committees & Government Hospitals. We are working towards a child-friendly mechanism for reporting and investigating cases under POCSO which provides effective support, rehabilitation and justice to children and their families.

**Care & Support Services For Victims & Families:** We intervene in specific cases of sexual offences against children by providing legal aid and services of a social worker to look into judicial processes, rehabilitation and psycho-social support for victims as prescribed in POCSO. We collaborate and support other organizations in case management through sharing of knowledge, resources and referrals.

**Research:** Our research unit focuses on key areas of child sexual abuse and exploitation. We are currently working on a State wide research for Maharashtra which evaluates the implementation of the POCSO law and the challenges faced by various agencies that come in contact with the law.

**Evidence-Based Advocacy with the State:** In May 2015, we launched 'POCSO On the Ground'- an interactive discussion series that brought to light the successes and challenges of working with the POCSO. It provides a platform for voices from civil society groups that have worked closely with the health sector, police, courts, children and families. The on-ground evidence is used as basis for advocacy with the State and the Central Governments.

**The Aarambh India Regional Alliance:** The Initiative takes the learnings from its various projects to child rights groups across different states in the country through training and developing local resources. The aim is to equip every state to have an active civil society network that is enabled to work on the issue of child sexual abuse & strengthen government systems within their state.

### **Following are some of the highlights of the Aarambh Initiative –**

1. Launched India's 1<sup>st</sup> Online Hotline to report Child Sexual Abuse Material, in partnership with UK based Internet Watch Foundation.
2. Catalyzed the formation of the National Alliance on the issue under the leadership of Union Minister Maneka Gandhi.
3. 126% annual increase in the number of users at aarambhindia.org (28,562 users)
4. 1300 individuals trained in 6 comprehensive modules.
5. Trained ECPACT regional partners from seven countries across Southeast Asia.
6. Support organization in 4 cases since 2014. Working with 20 children across these cases. Provided comprehensive support in all the legal and rehabilitative aspects of the cases
7. Direct intervention with 111 victims of CSA, digitization of 325 cases across 2 CWCs in Mumbai.
8. Facilitated training of 300 medical professionals across 16 peripheral hospitals in Mumbai, in partnership with ENFOLD.
9. Completed data collection of 164 stakeholders across 17 districts in Maharashtra for the Research on Unfolding of the POCSO Act across the State of Maharashtra.
10. Conducted the 4<sup>th</sup> POTG conference in Mumbai, engaged with more than 20 organizations in understanding various challenges of engaging with the POCSO law.
11. Presented the hotline and challenges of working on it at the 'The India Roundtable on Addressing Online Child Exploitation' organized by Tulir & The International Centre for Missing & Exploited Children, Singapore
12. Invited to be a part of the UNESCO Asia-Pacific Consultation on Developing Frameworks to Assess Digital Citizenship of Children.

### **PRERANA'S ANTI-TRAFFICKING CENTRE**

The ATC program comprises of work related to the anti-human trafficking issue on the whole. This program looks at building a knowledge hub on themes related to the issue and also on mentoring relevant stakeholders through hand-holding and sensitization sessions. The ATC program comprises of Post-Rescue Operations intervention which is being deployed in collaboration with the government through the Special Homes where victims of trafficking are placed. ## **PRERANA'S SANMAAN PROGRAM**

Sanmaan was an outcome of an appeal made by organizations to protect the rights of children found in beggary. Sanmaan has a three-pronged approach which is – Outreach/Rescue-Restoration-Rehabilitation/Collaboration-Advocacy. Sanmaan initiated work in July 2016 in collaboration with CWC-Mankhurd. The outreach work is being done in collaboration with 4 police stations – Agripada, Nagpada, VP Road and DB Marg. Sanmaan is collaborating with – CCVC, Childline, DWCD and Mumbai Police for advocacy and networking.

Sanmaan program has planned the following as action to be taken up in future –

1. Work with Department of Social Justice and Empowerment, Government of Maharashtra to understand and know the schemes for the Pardhi community. It is believed that it is an ex-criminal tribe as per the previous law and has been de-notified subsequently.
2. Prepare a document on the Pardhi community in the context of the children of this community having been recently found in begging in Mumbai on a significant scale.
3. A meeting with DWCD, CAS, for better rehabilitation of children found in beggary.
4. Training on Home Study Report for organizations.
